

LEONID SHALAEV FULL STACK DEVELOPER with 1+ year experience

70% Back-end (Java/Spring/SQL/NoSQL) 30% Front-end (JavaScript/TypeScript/React/Redux/CSS/HTML)

***** | | English, Hebrew, Russian | Beer Sheva, Israel | 1987

TECHNICAL SKILLS

Programming languages: Java, JavaScript, TypeScript, C#, C++, PHP, Pascal, Assembler, VBA

Backend & Technologies: JAVA Collections, JAVA Streams, Multithreading, JDBC API, Spring, Spring Boot, Spring AOP, Spring MVC, Spring Security, Spring Cloud, Spring Data, Hibernate, Maven, Gradle, Jackson, Project Lombok, JPA, Apache Tomcat, Apache Kafka, JUnit, JSON, XML, YML, REST, Docker,

ELK Stack, Log4j, Firebase, Heroku, JWT, Node.js, Postman, Kubernetes, Stomp, JPQL

Frontend: React, Redux, RxJS, Redux-Thunk, JQuery, HTML5, CSS3, Bootstrap, Material UI, lodash, axios, Webpack, NPM, JWT, JSON, XML, REST API

Operating Systems: Windows, Linux, Mac OS

Databases: SQL: PostgreSQL, MySQL, MariaDB, H2; NoSQL: MongoDB, Firebase

Methodologies of software development: Agile/SCRUM, AOP, OOP, OOD

Network protocols: TCP, UDP, IP, HTTP

IDE/tools: IntelliJ IDEA, Eclipse, WebStorm, VSCode

Version control & Project Management: Git (BitBucket, GitHub), Jira, Trello

EXPERIENCE

2021 - present, FULL STACK DEVELOPER, , Rehovot, Israel.

Participated in design and development of an engine for any online ordering system.

Responsibilities: Overall architecture design and implementation of User's Management, Shopping Cart, Ordering, Order's Management, Product's Management, Report's Generation, Persistence, CRUD.

Stack and technologies: Java, Stream API, Multithreading, Docker, Spring Boot, Spring Web, Spring AOP, Spring Security, Spring Data, Hibernate, Jackson, Project Lombok, Maven, Tomcat, JavaScript, TypeScript, React, Redux, Redux-Thunk, HTML5, CSS3, JSON, Firebase, Bootstrap, lodash.js, JWT, Material UI, NPM, Webpack, REST, WebSockets, Stomp, PostgreSQL, MongoDB.

2012 - 2021, Network Planning & Optimization Engineer, , Moscow, Russia. Full cycle of SWAP projects during upgrade mobile networks 2G/3G/LTE. Responsible for achieving target KPI during customer's cluster acceptance. Troubleshooting. Scripts preparation and implementation. BTS, BSC, RNC, eNodeB.

2010 - 2012, Network Engineer, , Volgograd, Russia.

Planning and optimization of mobile network 2G/3G. Configuring of the radio access subsystem. Measurement of the main indicators of network quality. Calculation of coverage maps. Analysis of statistics.

2009 - 2010, System Administrator, , Volgograd, Russia.

Deploying of office infrastructure. Domain/controller, Windows Server 2008, AD, DNS, DHCP, LAN, WAN, VPN, WSUS, IIS, 1C 8. ***** , MS Exchange 2007, PBX Panasonic KX-TDA100.

EDUCATION

2004-2009, Master, Computer science and information technology, , Volgograd, Russia

2020-2021, , Online course for learning Java programming.

2021, Tel Ran Educational Center, Special program for software developers' adaptation in accordance with Israel IT technologies by the Ministry of Absorption and Jewish Agency of Israel.
