

Haifa, Israel

(+972)

C/C++ Developer, Python Developer

/

Student of the M.V. Lomonosov Moscow State

University, Faculty of Mechanics and Mathematics
with over than 3 years experience of mathematical
modelling, numerical computations and algorithms
realisation.

Considering full-time, part-time and remote work with
possibility of relocation from current place of
residence.

EDUCATION SKILLS

Programming languages

Moscow State University, Faculty of Mechanics and
Mathematics C (3+ years) C++ (2+ years) Python (3+ years)

Sep 2019 - present

Mathematical Software

2-4 year student at the Chair of Theoretical Mechanics and
Wolfram Mathematica Maple Origin

Mechatronics with research work at the Chair of Differential
Geometry and Applications.

Data visualisation & Computer graphics

Course Papers:

Gnuplot Matplotlib OpenGL

Bifurcation analysis of the dynamics of a two-link
mathematical pendulum in a rotating frame of reference

Operating Systems

Some applications of Nijenhuis geometry to integrable

Windows Linux

Hamiltonian systems

Virtual Machines

Moscow State University, Department of Chemistry

Oracle VM VirtualBox

Sep 2018 - Aug 2019

Project Management

1 year student with research work at the Laboratory of
GitHub

Semiconductive Materials Chemistry and Physics.

Course Paper: Influence of scandium doping on

semiconductive properties of zinc oxide.

Moscow Institute of Physics and Technology, LANGUAGES

Evening School of Physics and Technology

English (fluent), Russian (native), Hebrew (basic).

Sep 2017 - May 2018

Last-year student, graduated with excellent marks.
